

Employee Engagement

Helping employees understand their benefits.

The Power of Innovation

WELLNESS

By leveraging the communication process of a voluntary worksite enrollment, we help employees understand the value of wellness and how physical health directly impacts their out-of-pocket medical costs. By individually engaging employees in wellness we can drive higher participation and results.

HDHP MIGRATION

A worksite enrollment is the perfect environment to educate employees about the value of a high-deductible health plan and how voluntary benefits help reduce their financial risk. Employees can then make an informed decision about which plan is truly best for them and their family.

BEN-ADMIN SYSTEMS

Voluntary benefits can help aid in the cost of a current benefits administration system or help your organization bridge the affordability gap and start experiencing the advantages these systems deliver.

DEPENDENT AUDITS

We typically find that 8-10 percent of dependents covered by an employer are actually ineligible for coverage. One-on-one voluntary enrollments provide a perfect environment to facilitate audit participation and compliance to ensure that you are only paying for eligible employees and dependents.

The Power of Communication

ONE-ON-ONE COMMUNICATIONS

Providing direct, one-on-one communication to employees helps them better understand their benefit options, allowing them to make more informed decisions.

FLEXIBLE ENGAGEMENT METHODS FOR YOUR BUSINESS NEEDS

- FACE-TO-FACE** By utilizing benefit counselors we engage employees one-on-one to drive strategic communication objectives.
- TELEPHONIC** Much like a one-on-one meeting, employees call a toll-free number and speak with their benefits counselor.
- WEB-BASED** Employees make a simple "program" election that encompasses both core and voluntary benefits. Follow-up to the employee election includes delivery of a customized educational program and voluntary benefits explanations.
